

PRESS RELEASE

INFORMA MARKETS VIETNAM ORGANIZES THE 14TH VIETNAM'S INTERNATIONAL WATER SUPPLY, SANITATION, WATER RESOURCES AND PURIFICATION EXHIBITION – VIETWATER 2023 AND VIETNAM'S EXHIBITION ON WASTE TREATMENT AND ENVIRONMENT TECHNOLOGY – WETV 2023 FROM OCTOBER 11TH -13TH, AT SECC, HCMC

From October 11th – 13th, 2023, at the Saigon Exhibition and Convention Center (SECC), District 7, Ho Chi Minh City, Informa Markets Vietnam will simultaneously operate The 14th Vietnam's International Water Supply, Sanitation, Water Resources and Purification Exhibition – Vietwater 2023 and Vietnam's Exhibition on Waste Treatment and Environment Technology – WETV 2023. The event is the ideal platform for exhibitors to showcase the most advanced products in the water and environment field, from water resource management technologies, Industrial, agriculture irrigation, urban water supply and drainage, and other water-related solutions. This edition gathers more than 450+ exhibitors from 25+ countries and obtains over 10,000+ specialized visitors.

Proud to be Vietnam's premier trade exhibition in the water industry for over a decade, **The 14th Vietnam's International Water Supply, Sanitation, Water Resources and Purification Event - Vietwater 2023** is set to return from October 11th – 13th, 2023, at the Saigon Exhibition and Convention Center (SECC) in District 7, Ho Chi Minh City. This year's edition promises an all-inclusive business program tailored for government agencies, enterprises, and individuals involved in the water and environmental sectors.

According to **Mr. BT Tee - General Manager of Informa Markets Vietnam** - the organizer of **Vietwater 2023**: *"We are aware of the importance of water in shaping the strategy of sustainable development. Water is the essential part of the solution to multiple crises on climate, biodiversity, inequity, migration, or even peace. To ensure sustainable efficiency of industrial, urban water management and irrigation, technological innovation for water and wastewater treatment is the first step we need to achieve. This is also the mission of **Vietwater 2023** when it brings together the most advanced water and waste treatment solutions from around the world. Alongside the showcase, sharing knowledge from leading industry experts and networking sessions help businesses to face and overcome existing challenges."*

The world's population reached 8 billion people in November 2022, leading to a high demand for food and agricultural products. As a country with a strong agricultural sector, Vietnam plays an important role in global food security, with over 80% of the water resources in Vietnam being used for agricultural purposes. Additionally, the rapid development of industrial zones and urbanization opens up high growth prospects for the water treatment and supply industry. It is forecasted that from 2025 to 2030, water consumption in Hanoi will increase by 12%, and Ho Chi Minh City will experience an annual increase of 6-8%.

Proud of being a leading organizer of international water exhibitions in the Southeast Asian region, such as AsiaWater, WaterPhilippines, ThaiWater, WaterIndonesia, and MyanmarWater, especially **Vietwater** in Vietnam. **Informa Markets** has made relentless efforts over the past nearly 20 years to support the increasingly strong development of the water industry in Vietnam and the Southeast Asian region.

Vietwater 2023 is honored to receive the support and collaboration of esteemed organizations such as Water Chapter of ASEAN US Science & Technology Fellowship Association (ASEAN S&T), Vietnam Water Partnership, Southeast Asia Union for Water, Environment and Geosciences (SEAGU), Ambassador of the Kingdom of the Netherlands in Vietnam, Daegu Korea, Singapore Water Association (SWA), German Water Partnership (GWP), British Water, Taiwan Water Association and many others supporting organizations in the region.

This year, **Vietwater 2023** brings together 450+ companies that are leading manufacturers, distributors of equipment, machinery, and technologies serving the water supply, drainage, and wastewater treatment industry from 25+ countries and territories such as the UK, France, Germany, Switzerland, the Netherlands, Turkey, Australia, Singapore, South Korea, Japan, Taiwan, China, Israel, etc. Alongside with a total area of 10,000 m², these companies will showcase products in various categories including water treatment, monitoring, management, supply, wastewater, industrial and urban waste, sludge treatment technology, rainwater, ultra-pure water, bottled water production technology, desalination and demineralization, disinfection and biological pollution control technology, natural treatment systems, non-revenue water (NRW), nutrient removal and recovery, particle removal, products for irrigation and drainage, membranes/filters, smart meters, water pipes and fittings, pumps and valves, water testing and measuring instruments, green technologies, water reuse, sustainable water technologies, solid waste management technologies, and many other water-related and waste-related products.

In addition to the exhibition space, **Vietwater 2023** also offers an international conference program that has garnered significant attention from domestic and international business communities. The theme of the conference is **"Accelerating On-Demand Innovations for smart water governance"**. The program features leading speakers from the water resource management sector, both from domestic and international institutions and associations. Some notable speakers include Dr. Bach Tan Sinh, Vietnam Representative of The Sustainable Mekong Research Network (SUMERNET) & Senior Advisor to the Institute for Circular Economy Development (ICED), Formal Acting Director of Research Centre of S&T Policy, National Institute of Policy and Strategy/ Ministry of Science and Technology; Mr. Daniel Stork, Consul General of the Kingdom of the Netherlands in Ho Chi Minh city, Vietnam; Dr. Ir.Hj. Mohmad Asari Daud, Chairman, Malaysian Water Association; Atty. Vicente Homer R. Revil, the Administrator of Local Water Utilities Administration (LWUA); Mr. Bernard Koh, Representative of the National Water Agency of Singapore; Prof. Vu Minh Cat, Former Dean of Faculty at TLU, Co-Founder of ISGSD-Vietnam, and Senior Expert of Vietnam National Committee on Large Dams and Water Resources Development (VNCOLD); Dr. Ali Saleh, Director of Texas Institute for Applied Environment Research, USA; Founder of 21st Century Watershed Technology Conference, USA; Mr. Nguyen Hong An, Deputy Director General of Danang's Department of Natural Res and Environment; Mrs. Dang Nguyen Thuc Anh, Head of Water Management Unit at Danang's Department of Natural Res and Environment; Dr. Du Le Thuy Tien, Co-Founder of SEAGU; RS and Modeling Expert at NCALM National Lab, USA and many other distinguished speakers.

Furthermore, to connect potential customers with over 450+ global suppliers, **Vietwater 2023** offers a **"Business Matching Program"**. This program is created to fasten buyers and international suppliers to access 1:1 discussion & meet, exchange ideas, and enhance their partnerships.

In this potential context, with its diverse range of showcased products, international conferences, and practical business networking activities, **Vietwater 2023** promises to be an eagerly awaited edition, opening a new chapter for the development of the water industry in Vietnam.

OUTSTANDING BUSINESSES AT EXHIBITION AT VIETWATER 2023

(Netherlands), Jumpanny Enterprise Co., Ltd., Passal Co., Ltd., Organic Filter Co., Ltd., Jakiflow Corporation (Taiwan), Sumitomo (SHI) Cyclo Drive Asia Pacific Pte Ltd, Century Water Systems & Technologies Pte Ltd (Singapore), Aerzener Maschinenfabrik GmbH, BERGHOF Membrane Technology GmbH, MANN+HUMMEL Water & Fluid Solutions GmbH (Germany), Huba Control AG (Switzerland), Wardsflex, Pulsar Process Measurement Limited (UK), Vontron, LEO Group pumps, GSD, Organic Industries, and many other domestic and international entities. Particularly, **Vietwater 2023** also features the participation of international pavilions from countries such as the UK, Germany, Italy, the Netherlands, Taiwan, Singapore, Switzerland, Japan, South Korea, China, etc.

ABOUT WETV

Attracting trade visitors with numerous potential business opportunities in environment field, **Vietnam's Exhibition on Waste Treatment, and Environment Technology - WETV** will take place from October 11th - 13th, 2023, at the Saigon Exhibition and Convention Center - SECC, 799 Nguyen Van Linh, District 7, Ho Chi Minh City, co-locating with **Vietwater 2023**. The event promises to provide valuable chances for international businesses to introduce advanced and sustainable solutions for waste treatment, environment, and transportation sectors in Vietnam.

Being launched as a co-located event of **Vietwater** since 2018, **Vietwater** and **WETV** have created a dual chance for individuals and businesses in the field of wastewater and waste treatment in Vietnam. The event is considered as a highly profitable marketing activity, which helps to connect suppliers with buyers, and facilitating the transfer of environmental technologies and solutions aimed at minimizing waste towards sustainable development.

As part of this year's **WETV**, **Inform Markets** also collaborate with Vietnam Recycling Association and Vietnam Urban and Industrial Environment Association to organize a seminar on the theme "**Waste Minimization Policies and Solutions Towards Circular Economy In Vietnam**". This year's seminar features highly engaging content carefully curated and developed by influential experts and speakers who have a significant impact within the community and business sector such as include Zen Master Thich Minh Niem; Ambassador Extraordinary and Plenipotentiary of Kingdom of the Netherlands in Vietnam; Representative of Alliance to End Plastic Waste (AEPW); as well as leadership representatives from various domestic institutions and associations such as Ministry of Natural Resources & Environment; Ho Chi Minh City Department of Natural Resources and Environment; Vietnam Recycling Association; Vietnam Urban Environment and Industrial Parks Association; The Center for Environmental Protection and Climate Change, Representatives from CITENCO, URENCO Hanoi, etc. This seminar not only helps participants grasp the latest trend on waste management in Vietnam but also supports them in finding optimal solutions, contributing to the sustainable development towards Vietnam's circular economy.
